

Meet Andrew Phillips

Physical Therapist Assistant
*Associate Degree of Applied Science
from Arkansas State University*

9 months with North Arkansas Regional Medical Center

What made you decide to become a Physical Therapist Assistant? As a multi-sport athlete in high school, I had my fair share of athletic injuries. I wanted to become a PTA so that I could help people and athletes return to their prior level of function.

Specialty Area: Outpatient Orthopedic and Sports Medicine Injuries

Favorite Part of Being a Physical Therapist Assistant: My favorite part of my job is to take negative circumstances that people have and turn them into positive outcomes. I love seeing people

gain their quality of life back. Over the course of time that I have worked in Physical Therapy, I've had the pleasure of meeting some amazing people and therapists, which only makes this career more rewarding.

Fun Fact About Yourself: I was raised in Marshall and grew up on a cattle farm where I still live. I am married to my wife Faith and we have a beautiful 13 month old girl, Bailyynn Jane, who is our world. I spend a lot of time playing recreational sports along with volunteer coaching and spending as much time with my family as possible.
